

Easy::Touch

Turnstile remote control Console with an intuitive GUI - scalable for site specific layouts

The **Easy::Touch** our next generation remote control console specifically designed for reception and security desk applications. **Easy::Touch** easily manages and controls large groupings of turnstiles or gates from a compact space saving form factor using an intuitive Graphical User Interface (GUI).

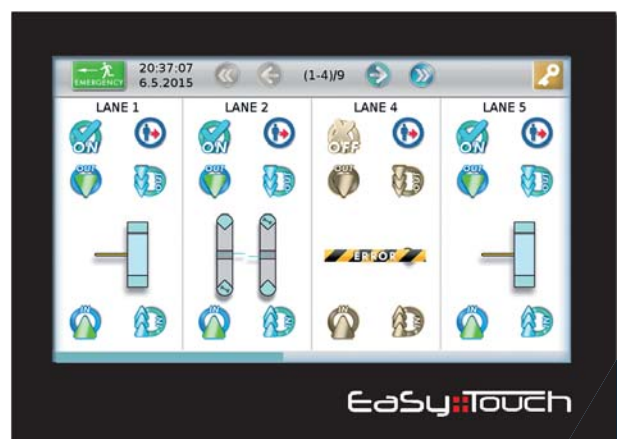

The user friendly 7" touch screen display graphics requires minimal training for proficiency in navigating the various pages, remotely controlling the lanes and understanding the real time feedback such as alarm events when unauthorized access is detected. The **Easy::Touch** display immediately indicates which is in alarm on the **Easy::Touch** screen with a visual cue allowing the user/operator to quickly respond to the event.

BENEFITS

- AN INTUITIVE GRAPHICAL USER INTERFACE (GUI)
- CLEAR VISUAL AND AURAL CUES TO ALARMS AND CONTROL INPUTS
- EMERGENCY INPUT MODE VIA A VIRTUAL CONTROL BUTTON
