

Vision VRS124000-4-J

Box Clever!

To complement the range of low profile 12V CCTV power supplies, Elmdene has just introduced an even smaller version!

This 4A unit comes with 4 individually fused output circuits. It has all the features of the larger versions but measures just 185 x 200 x 60mm.

All this plus money saving switch mode technology make this one neat box of tricks!

Find out more about the Vision 12V CCTV range and other Elmdene products by visiting the website www.elmdene.co.uk.
